

## OUR COURSES

CorrISA recognises there are many quality corrosion-training programmes in the market and would be interested in endorsing many forms of corrosion education. Talk to us about adding additional courses to our suite. The above courses are run throughout the country and are dependent on numbers. Most courses are run in our own facility we call the CORē. CorrISA with a partnership (Licensee) with National Association of Corrosion Engineers (NACE) offers internationally recognised courses and certification for Corrosion professionals.

### **CORRISA:**

- Corrosion Not Just Rust – Half Day (Company Members receive 1 Free seat a year)
- Corrosion Engineering Course – Five Days (5 CPD Points)
- CITWI (Corrosion In Water Industry) – Four Days (4 CPD Points)
- Corrosion Management–Two Days

### **NACE:**

- Basic Corrosion
- CIP1 - Coating Inspectors Programme Level 1 (6 CPD Points)
- CIP 2 - Coating Inspectors Programme Level 2 (6 CPD Points)
- CIP 3 Peer Review - Coating Inspectors Programme Level 3
- Corrosion & Protection of concrete structures & buildings (2 days)
- Corrosion Control in the Refining Industry
- CP1 - Cathodic Protection 1 – Tester (5 CPD Points)
- CP2 - Cathodic Protection 2 – Technician (5 CPD Points)
- CP3 - Cathodic Protection 3 – Technologist (6 CPD Points)
- CP4 - Cathodic Protection 4 – Specialist (6 CPD Points)
- ECDA / International / Local
- In-Line Inspection (ILI) (5 days)
- Marine Coating Technology (4 days)
- PCS 1 - Protective Coatings Specialist Basic Principles
- PCS 2 Advanced - Protective Coating Specialist 2 Advanced
- O-CAT - Offshore Corrosion Assessment Training
- Pipeline Coating Applicator Training

## NETWORK

Department of Social Development

Registration number 113-690 NPO

MerSeta

Registration number 17-QA/ACC/1260/16

National Science and Technology Forum

CorrISA is a member of NSFT and ProSET

National Association of Corrosion Engineers

CorrISA is licensed to run the NACE suite of Courses

South African Bureau of Standards

CorrISA represents itself in this forum

Network includes:

AFSA	–	Aluminium Federation of South Africa
CDA	–	Copper Development Association
CSSA	-	Concrete Society of Southern Africa
ECSA	–	Engineering Council of South Africa
HDGASA	–	Hot Dip Galvanising Association of South Africa
IMESA	–	The Institute of Municipal Engineering of Southern Africa
OCCA	–	Oil and Colour Chemists Association
SAIMM	–	South African Institute of Mining and Metallurgy
SAINT	–	South African Institute of Non-Destructive Testing
SAISC	–	South African Institute of Steel Construction
SAIT	–	South African Institute of Tribology
SAIW	-	South African Institute of Welding
SAPMA	–	South African Paint Manufacturers Association
SASSDA	–	South African Stainless Steel Development Association
