

Facilities

Operations across GCC, Iraq, Africa & India

10 Chemical Manufacturing Units
1 Chemical Terminal, 24 Sales & Services Offices

AquaChemie ranks

#9 in the MENA region
#71 globally as per ICIS

AquaChemie Plot B048F01, Street 711,
Jebel Ali Free Zone (North), PO Box 211586, Dubai, UAE

Oil & Gas
Upstream

From Drilling to Stimulation - Chemistry That Delivers

Mission

Beyond Chemicals, Towards Solutions – Delivering the best solutions and technical support anytime, anywhere to drive superior performance with reliability and excellence.

Vision

Together Towards Tomorrow – Empowering industries with innovative and sustainable solutions, setting new standards in trust and excellence.

Values

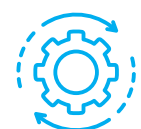

Process Knowledge

People in AquaChemie are seasoned professionals with years of industry experience

Product Quality

Backed by technical expertise and advanced formulation, our manufacturing process ensures superior performance, meeting the highest industry standards with unwavering reliability.

Service Level

Offering Sustainable Supply Chain Solutions along with Field, Analytical and Monitoring Services

Social Commitment

Strict Internal norms of Environment, Health and Safety

The extensive portfolios in Drilling Fluids, Cementing, Stimulation, Fracking and Production will exceed the expectation of quality and performance in every application.

Why AquaChemie?

Founded in 2008, AquaChemie has quickly established itself as a leader in the manufacturing and distribution of specialty and industrial chemicals. With a strong presence in the Middle East, the company ranks 9th in the MENA region and 71st globally among chemical suppliers, as reported by ICIS.

AquaChemie operates across a broad geographic footprint, with full-scale operations in the UAE, Saudi Arabia, Bahrain, Qatar, Kuwait, Oman, Iraq, India and Africa. The company has also forged strategic joint ventures with renowned industry partners such as Kurita, Venture Gulf Group, and Enroll Oilfield Services, further enhancing its market position and growth trajectory.

AquaChemie has been a well-established supplier of upstream chemicals across the GCC region. We provide high-performance chemical solutions and expert technical support to meet the evolving needs of our customers.

Through strategic collaborations with leading industry principals, we offer innovative and effective solutions to tackle even the most complex challenges.

AquaChemie's state-of-the-art laboratory in Abu Dhabi, UAE (KEZAD & ICAD), KSA (Jubail) and Qatar serve as a hub for technical support, ensuring seamless operations across all GCC countries. When faced with unique challenges, our team actively collaborates with customers to develop new chemical formulations or identify the most suitable solutions.

Portfolio

Drilling Fluids

- Alkalinity
- Base Fluids
- Biocides
- Brines (Monovalent)
- Brines (Divalent)
- Casing Cleaners
- Corrosion Inhibitors
- CO₂ Scavengers
- Defoamers
- Dewatering Chemicals
- Drilling Detergents
- Emulsifiers
- Enzymes
- Filtercake Breakers
- Fluid Loss Control Agents (LT,HT)
- Formates
- Glycols
- Hole Cleaning Agents
- H₂S Scavengers
- Hydrates Control
- Inhibition Control
- Lost Circulation Materials
- Lubricants
- Oxygen Scavengers
- Polymer Extenders
- Pipe Freeing Agents
- Rheology Modifiers
- Silicates
- Spotting Fluids
- Surfactants
- Thinners
- Viscosifiers
- Weighting Agents
- Wetting Agents

Cementing

- Anti-Settling Agents
- Cement
- Compressive Strength additives
- Defoamers
- Dispersants
- Expanding Additives (LT,HT)
- Extenders
- Fibers
- Fluid Loss Control Additives (LT,MT,HT)
- Gas Block Additives
- Light Weight Additives
- Lost Circulation Materials
- Pre-flushes
- Resin sealants
- Retarders (LT,MT,HT)
- Self healing additives
- Spacers
- Stabilizers
- Surfactants
- Thixotropic Agents
- Weighting agents

Stimulation & Frac

- Acids
- Acid Corrosion Inhibitors (ACI)
- Acid Corrosion Inhibitors Intensifiers
- Acid Emulsifiers
- Acid Gelling Agents
- Acid Retarders
- Anti Sludge
- Asphaltene inhibitors
- Asphaltene removers
- Biocides
- Breakers
- Chelating Agents
- Clay Stabilizers
- Corrosion Inhibitors
- Corrosion Inhibitors (Coil Tubing)
- CO₂ scavengers
- Diverting Agents
- Degradable Fibers
- Delay Agents
- Foaming Agents
- Friction Reducers (dry powder, slurry, emulsions)
- Gel Temperature Stabilizers
- H₂S scavengers
- Iron Control Agents
- Metal to Metal Friction Reducers
- Non-Emulsifiers
- Proppants
- pH Buffers
- Scale Inhibitors
- Solvents
- Surfactants (Anionic, Cationic, Non Ionic)
- Viscoelastic Surfactants (VES)
- X-linking agents

Production

Asset Integrity Management:

- Corrosion Inhibitors (Sweet/Sour)
- Oil/Water/Gas Corrosion Inhibitors
- Acid Corrosion Inhibitors
- Biocides
- Oxygen Scavengers
- H₂S Scavengers

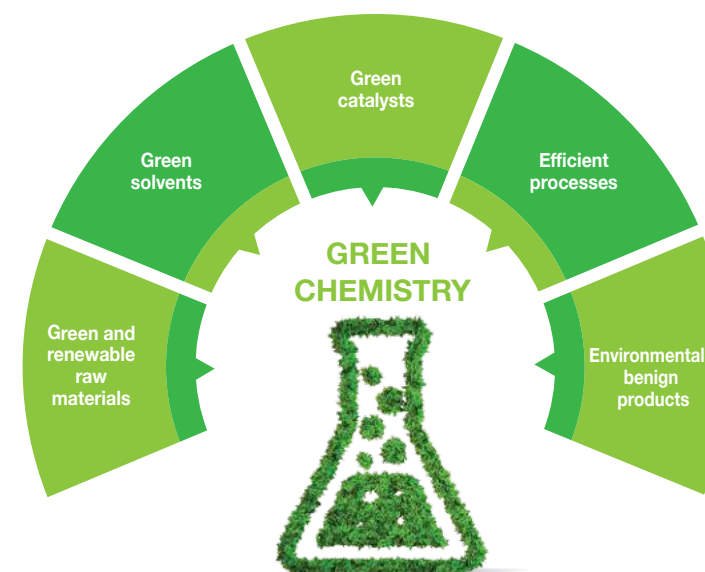

Production Optimization Solutions:

- Emulsion Breakers
- Water Clarifiers
- Antifoam/Defoamers

Flow Assurance Management:

- DRA
- Scale Inhibitors/Dispersants
- Scale Dissolvers
- Asphaltene Inhibitors/Dispersants
- Asphaltene Dissolvers
- Paraffin/Wax Inhibitors/PPD
- Paraffin/Wax Dissolvers
- Hydrate Inhibitors

Innovation & Sustainability

AquaChemie aspires to become a market leader in specialty chemicals with a strong commitment to sustainability. In a world where reducing CO₂ emissions is an increasing priority, we are dedicated to providing reliable solutions that not only meet but exceed customer expectations while minimizing environmental impact.

AquaChemie believes in the concept of a circular economy, which focuses on minimizing waste, maximizing resource efficiency, and reducing environmental impact. This approach revolves around the principles of recycling, reusing, and repurposing chemicals and materials. By embracing these principles, AquaChemie aims to create a closed-loop system that reduces dependency on finite resources and promotes sustainability throughout the chemical lifecycle.
